
FINAL SCIENTIFIC PROGRAM

COMBINED MEETING OF

The Hip Society
with the European Hip Society and
Swedish Arthroplasty Association

A golden crown is positioned in the foreground, its ornate details and cross-topped finial clearly visible. The crown is set against a background of a cityscape, likely Stockholm, with colorful buildings and a body of water. The sun is low on the horizon, creating a warm, golden glow and reflecting off the water. A dark blue rectangular box is overlaid at the bottom of the image, containing the event dates and location.

SEPTEMBER 3-5, 2026

STOCKHOLM, SWEDEN

2026 COMBINED MEETING OF THE HIP SOCIETY WITH THE EUROPEAN HIP SOCIETY AND SWEDISH ARTHROPLASTY ASSOCIATION September 3-5 | Stockholm, Sweden FINAL PROGRAM

Thursday September 3			
12:30 – 12:35 PM		WELCOME Mathias P.G. Bostrom, MD – President, The Hip Society Fares S. Haddad, MD, FRCS– President, The European Hip Society	
12:35 – 1:15 PM		Session I: Indications, Appropriateness, Patient Reported Outcomes <i>Moderators: Luigi Zagra, MD and Paul J. Duwelius, MD</i>	Page #
12:35 – 12:40 PM	1 THS	Mostly Right, Sometimes Risky: Evaluating ChatGPT-5.2 Against AAOS Guidelines for Hip Osteoarthritis Kevin J. Bozic, MD, MBA	13
12:40 – 12:45 PM	2 THS	Intake Questionnaire Predictors of Total Hip Arthroplasty - A Midlevel-Adjusted Multivariable Analysis of 14,769 Patients Thorsten M. Seyler, MD	14
12:45 – 12:50 PM	3 EHS	Patient-Reported Outcomes Ten Years After Primary Total Hip Arthroplasty A Nationwide Study from the Swedish Arthroplasty Register Ola Rolfson, MD, PhD	15
12:50 – 12:55 PM	4 THS	Establishing Criteria for Clinically Meaningful Functional Change at Two Years for Patients Enrolled in a Comprehensive Hip Osteoarthritis Management Program William A. Jiranek, MD	16
12:55 – 1:00 PM	5 THS	CMS Success Metrics Discordance with Patient Satisfaction Among Patients with Substantial Preoperative Disability David C. Ayers, MD	17
1:00 – 1:05 PM	6 EHS	Influence of Preoperative Anxiety on Functional Recovery After Total Hip Arthroplasty Nicolas Reina, MD, PhD	19
1:05 – 1:15 PM		DISCUSSION	

Thursday | September 3

1:15 – 1:55 PM		Session II: Surgical Approach <i>Moderators: Andrew Manktelow, FRCS (Orth) and Neil P. Sheth, MD</i>	Page #
1:15 – 1:20 PM	7 THS	Clinical Outcomes of Anterior-Based Muscle Sparing Approach Versus Direct Anterior for Total Hip Replacement Jeffrey A. Geller, MD	20
1:20 – 1:25 PM	8 EHS	Evaluating Structural Changes in Periarticular Muscles Following Hip Arthroplasties Utilizing an Automated Analysis by the Total Segmentator Martin Clauss, MD	21
1:25 – 1:30 PM	9 EHS	Implant Positioning Precision and Complication Profile of Bikini Versus Standard Incision in Direct Anterior THA: A Comparative Study About 1291 Consecutive Cases Sébastien Lustig, MD, PhD	23
1:30 – 1:35 PM	10 EHS	Is Bilateral Bikini Incision Total Hip Arthroplasty as Safe as Unilateral? A 12-Year Retrospective Comparative Study Karuppiiah Mahalingham, MBBS, FRCS	24
1:35 – 1:40 PM	11 SAA	Differences in Gait Analysis One Year after THA Performed Through a Lateral vs a Posterior Approach. Results on 60 patients from a Randomised Controlled Trial Georgios Tsikandylakis, MD, PhD	25
1:40 – 1:45 PM	12 THS	The Posterior Approach is Associated with a Significantly Higher Same-Day Discharge Rate than the Anterior Approach Following Primary Total Hip Arthroplasty William J. Long, MD	27
1:45 – 1:55 PM		DISCUSSION	
1:55 – 2:30 PM		Session III: Technology in Primary THA <i>Moderators: Eleftherios Tsiridis, MD, PhD, FRCS and William G. Hamilton, MD</i>	Page #
1:55 – 2:00 PM	13 THS	Machine Learning Prediction of Acetabular Cup Size in Total Hip Arthroplasty: Comparable Accuracy to Preoperative Templating Neil P. Sheth, MD	28
2:00 – 2:05 PM	14 THS	CT-Based Impingement Modeling in Robotic Total Hip Arthroplasty Is Associated with Reduced Dislocation Risk: A 3.5-Year Survivorship Analysis David J. Mayman, MD	30
2:05 – 2:10 PM	15 EHS	Does Experience Matter? A Prospective Comparison of Robotic-Assisted and Manual Acetabular Component Positioning in THA Pascal Kouyoumdjian, MD, PhD	31

Thursday | September 3

2:10 – 2:15 PM	16 THS	Robotic Total Hip Arthroplasty Yields Comparable Outcomes Independent of Arthroplasty Fellowship Training Michael A. Mont, MD	32
2:15 – 2:20 PM	17 SAA	Operating Time and the risk of Early All-Cause Revision and Infection in Primary Total Hip Replacement Surgery – An Observational Study from the Swedish Arthroplasty Register Maziar Mohaddes, MD, PhD	37
2:20 – 2:30 PM		DISCUSSION	
2:30 – 2:45 PM		BREAK	
2:45 – 3:25 PM		Session IV: Hip Fractures <i>Moderators: Ola Rolfson, MD, PhD and William A. Jiranek, MD</i>	Page #
2:45 – 2:50 PM	18 THS	Does Implant Choice Matter? A Comparison of Sliding Characteristics and Failure Rates in Four Cephalomedullary Nails Designs for Intertrochanteric Fractures George J. Haidukewych, MD	38
2:50 – 2:55 PM	19 EHS	Internal Fixation versus Arthroplasty in Nondisplaced Femoral Neck Fractures in the Elderly: A Systematic Review and Meta-analysis Geert Meermans, MD	39
2:55 – 3:00 PM	20 EHS	Comparison of Hemiarthroplasty, Total Hip Arthroplasty, and Internal Fixation for Hip Fractures in Patients Over Eighty Years of Age: Factors Affecting Mortality: A Nationwide Cohort Study of 53495 Patients from Türkiye Bülent Atilla, MD	41
3:00 – 3:05 PM	21 THS	Arthroplasty as Treatment of Hip Fracture-15 years Follow up of Revision Rates Based on Approach, Arthroplasty Type and Design Cecilia Rogmark, MD, PhD	42
3:05 – 3:10 PM	22 EHS	Cemented Stems for Conversion THA after Failed Internal Fixation of the Proximal Femur: Low Complication and Revision Rate at Medium Term Follow up Luigi Zagra, MD	43
3:10 – 3:15 PM	23 EHS	Periprosthetic Femoral Fracture Carries High Readmission Rate and the Same Mortality Rate as Out of Hospital Cardiac Arrest: An Analysis of 443 PPFs over a 15-year Period Fiachra E. Rowan, MD, FRCS (Orth)	44
3:15 – 3:25 PM		DISCUSSION	
3:25 – 3:55 PM		PRESIDENTIAL GUEST SPEAKER: David Lindberg, Senior Museum Teacher, Nobel Prize Museum	

Thursday | September 3

3:55 – 4:05 PM		Questions and Answers	
4:05 – 4:40 PM		Session V: Revision THA: Diagnosis <i>Moderators: Olof Sköldenberg, MD, PhD and Daniel J. Berry, MD</i>	Page #
4:05 – 4:10 PM	24 EHS	What Does “Aseptic Loosening” Mean in Modern Revision THA? Carsten Perka, MD	46
4:10 – 4:15 PM	25 SAA	Machine Learning for Early Detection of Aseptic Loosening After Total Hip Arthroplasty: A Nationwide Register-Based Study Protocol Jörg Schilcher, MD, PhD	47
4:15 – 4:20 PM	26 SAA	Implant Movement Analysis (IMA) for Evaluation of Suspected Loose THA. A follow up of 326 Hips Per Wretenberg, MD, PhD	49
4:20 – 4:25 PM	27 EHS	Migration of the G7 Bispherical Acetabular Cup: A Radiostereometric Study with Five-Year Follow-up Stephan B.W. Vehmeijer, MD, PhD	50
4:25 – 4:30 PM	28 EHS	Development and Validation of an Outcome-Based Classification of Femoral Bone Stock to Guide Surgical Planning in Revision Total Hip Arthroplasty Sujith Konan, MBBS, MD (Res)	51
4:30 – 4:40 PM		DISCUSSION	
4:40 – 5:15 PM		Session VI: Prosthetic Joint Infection <i>Moderators: Fares S. Haddad, MD (Res) FRCS (Orth) and Thorsten M. Seyler, MD</i>	Page #
4:40 – 4:45 PM	29 SAA	Single vs. Multiple Prophylactic Antibiotic Doses and Periprosthetic Joint Infection: A Target Trial Emulation Using Nationwide Danish Registry Data Soren Overgaard, MD, PhD	53
4:45 – 4:50 PM	30 THS	Single Versus Double DAIR for Acute Periprosthetic Joint Infection of the Hip: A Multicenter Study Mark J. Spangehl, MD	55
4:50 – 4:55 PM	31 EHS	18F-FDG is superior to 18F-fluoride PET/CT in the Diagnosis of Periprosthetic Joint Infection: A Cohort Study Anders Brüggemann, MD, PhD	58
4:55 – 5:00 PM	32 SAA	One-Stage Versus Two-Stage Revision for Periprosthetic Hip Joint Infection Olof Sköldenberg, MD, PhD	59

Thursday | September 3

5:00 – 5:05 PM	33 THS	Extended Oral Cefadroxil Prophylaxis Reduces Periprosthetic Joint Infection Following Aseptic Revision Total Hip Arthroplasty Michael P. Bolognesi, MD	61
5:05 – 5:15 PM		DISCUSSION	
5:15 – 5:20 PM		CONCLUSION AND ANNOUNCEMENTS	

Friday | September 4

7:30 – 7:35 AM		WELCOME BACK AND HIGHLIGHTS OF THE DAY	
7:35 – 8:20 AM		Session VII: Hip Resurfacing <i>Moderators: Carsten Perka, MD and John C. Clohisy, MD</i>	Page #
7:35 – 7:40 AM	34 THS	Hip Resurfacing Arthroplasty Enables High Return-To-Sport Rates in Elite Athletes Edwin P. Su, MD	63
7:40 – 7:45 AM	35 EHS	Cementless Total Hip Arthroplasty Versus Hip Resurfacing in Patients Under the Age of 55 Years: A 20-Year Prospective Comparative Follow-Up Fares S. Haddad, MD (Res) FRCS (Orth)	64
7:45 – 7:50 AM	36 THS	Outcomes of Revision Total Hip Arthroplasty for Failed Metal-On-Metal Hip Resurfacing. A 10-Year Follow-Up Study John Antoniou, MD, PhD	66
7:50 – 7:55 AM	37 EHS	Five-Year Survival of a Hybrid Ceramic-On-Ceramic Hip Resurfacing: An International Multi-Center Study Andrew Manktelow, FRCS (Orth)	67
7:55 – 8:00 AM	38 THS	Interim Results of a Prospective Multicenter IDE Study of the Polymotion Hip Resurfacing System Craig J. Della Valle, MD	69
8:00 – 8:05 AM	39 EHS	Cortical Thickness Index Predicts Femoral Neck Fracture After Hip Resurfacing William Walter, MBBS, PhD	70
8:05 – 8:10 AM	40 EHS	Experience with Femoral Head Reduction and Long-Term Results in Severely Deformed Femoral Heads Klaus A. Siebenrock, MD	71
8:10 – 8:20 AM		DISCUSSION	
8:20 – 9:10 AM		Session VIII: Implant Longevity and the Young Hip <i>Moderators: Michael M. Morlock, PhD and Kevin L. Garvin, MD</i>	Page #

Friday | September 4

8:20 – 8:25 AM	41 EHS	Long-Term Outcomes of Bearing Surfaces in Total Hip Arthroplasty: Analysis of the National Joint Registry Syed S. Ahmed, FRCS (Tr & Orth)	72
8:25 – 8:30 AM	42 THS	Total Hip Arthroplasty in Patients 30 Years and Younger: Survivorship and Functional Outcomes Samuel S. Wellman, MD	73
8:30 – 8:35 AM	43 EHS	Complication Profile, Morbidity and Revision Rates After Total Hip Arthroplasty in Adults Under 30 Years: Encouraging Results from Single Tertiary Centre Cohort Data with Up To 18-Years Follow-Up Mark R.J. Jenkinson, FRCS (Orth)	74
8:35 – 8:40 AM	44 THS	Total Hip Arthroplasty in Adolescents and Young Adults: Comparison of National Database and Institutional Data Brett R. Levine, MD	76
8:40 – 8:45 AM	45 EHS	The Sound of Success: A Ten-Year Comparative Analysis of Squeaking and Substantial Clinical Benefit Following Ceramic-on-Ceramic THA Oliver Marin-Peña, MD	80
8:45 – 8:50 AM	46 THS	Incidence of Noise After Total Hip Arthroplasty in a Randomized Controlled Trial Comparing Metal-on-Polyethylene to Large Head Ceramic-on-Ceramic at a Mean Follow-Up of 10 Years Paul E. Beaulé, MD	81
8:50 – 8:55 AM	47 THS	Long-term Outcomes for Thin Liners in Total Hip Arthroplasty William Macaulay, MD	82
8:55 – 9:00 AM	48 SAA	No Aseptic Loosening After Primary THA With Uncemented Bi-Metric Stems at a Mean 31.7-Year Follow-Up: A Single-Center Prospective Cohort Study of 271 Hips Henrik Bodén, MD, PhD	86
9:00 – 9:10 AM		DISCUSSION	
9:10 – 9:25 AM		BREAK	
9:25 – 10:05 AM		Session IX: Implant Selection <i>Moderators: Klaus A. Siebenrock, MD and Bassam A. Masri, MD</i>	Page #
9:25 – 9:30 AM	49 EHS	Choice of Implant or Choice of Hospital: Which Factor is More Important for the Outcome in Primary Uncemented Total Hip Arthroplasty? Michael M. Morlock, PhD	88
9:30 – 9:35 AM	50 THS	Does Cement Viscosity or the Presence of Antibiotics Influence Survivorship After Cemented Total Hip Arthroplasty? An Analysis from the American Joint Replacement Registry Harpal S. Khanuja, MD	90

Friday | September 4

9:35 – 9:40 AM	51 THS	Update on Iliopsoas Impingement: Influence of Calcar Remodeling and Sex on IPI in Collared Total Hip Arthroplasty Christopher E. Pelt, MD	92
9:40 – 9:45 AM	52 THS	Association of Collared Femoral Implants to Postoperative Iliopsoas Pain in Primary Total Hip Arthroplasty William G. Hamilton, MD	93
9:45 – 9:50 AM	53 THS	Risk Factors Associated with Perioperative Periprosthetic Femoral Fracture in Elective Total Hip Arthroplasty Gwo-Chin Lee, MD	95
9:50 – 9:55 AM	54 THS	Early Periprosthetic Femoral Fracture Rates in CT-Planned Cementless THA with Triple-Tapered Collared Stems Stephen B. Murphy, MD	97
9:55 – 10:05 AM		DISCUSSION	
10:05 – 11:00 AM		Session X: Hip Instability <i>Moderators: Eduardo García-Rey, MD, PhD and Matthew P. Abdel, MD</i>	Page #
10:05 – 10:10 AM	55 EHS	Optimising Periprosthetic Hip Stability – An International Expert Delphi Consensus Statement Gerard Sheridan, MD, FRCS (Orth)	99
10:10 – 10:15 AM	56 EHS	Dislocation following total hip arthroplasty: A Single-Center Study of 4977 Hips Operated Between 1999 and 2024 Eduardo García-Rey, MD, PhD	102
10:15 – 10:20 AM	57 EHS	Spinopelvic Alignment and Proximal Femoral Morphology in Dysplastic and Non-Dysplastic Hips: A Comparative Radiographic Study of 399 Hips Eleftherios Tsiridis, MD, PhD, FRCS	103
10:20 – 10:25 AM	58 THS	Effectiveness of Therapeutic Exercises on Spinopelvic Mobility Douglas A. Dennis, MD	105
10:25 – 10:30 AM	59 THS	Mid-Term Survivorship of Modern Monoblock Dual Mobility Implants in Primary THA at a High-Volume Center Don S. Garbuz, MD	107
10:30 – 10:35 AM	60 EHS	Dual Mobility Cups Reduce Dislocation Risk After Revision Total Hip Arthroplasty: A Retrospective Cohort Study Michael Axenhus, MD	109
10:35 – 10:40 AM	61 THS	Corrosion in Retrieved Diffusion-Hardened Oxinium Modular Dual Mobility Liners is Less Severe Than in Retrieved Cobalt-Chromium Liners Mathias P.G. Bostrom, MD	111

Friday | September 4

10:40 – 10:45 AM	62 THS	Survival of Contemporary Constrained Liners: No Difference Between Locked-Ring and Tripolar Designs Matthew S. Austin, MD	112
10:45 – 10:50 AM	63 THS	Use of Dual-Mobility Constructs in Two-Stage Revision THAs for Infection Reduced Subsequent Dislocation Risk Matthew P. Abdel, MD	113
10:50 – 11:00 AM		DISCUSSION	
11:00 – 11:05 AM		CLOSING REMARKS / COMBINED MEETING ADJOURNED	
11:05 – 11:55 AM		COMBINED LUNCH	

Saturday | September 5

6:30 – 7:00 AM		LIGHT BREAKFAST FOR MEMBERS OF THE HIP SOCIETY ONLY	
7:00 – 8:00 AM		THE HIP SOCIETY'S BUSINESS MEETING <i>(Members of The Hip Society Only)</i>	
8:00 – 8:05 AM		WELCOME BACK	
8:05 – 8:45 AM		Session XI: Hip Preservation <i>Moderators: Rafael J. Sierra, MD and George Grammatopoulos, MD</i>	Page #
8:05 – 8:10 AM	64	Hip Arthroscopy and Hip Dysplasia: Are We Making Progress? A Comparison of Two Consecutive Dysplastic Cohorts from 2005 - 2013 and 2015 – 2021 Christopher M. Larson, MD	114
8:10 – 8:15 AM	65	Contralateral Hip Morphology is Predictive of Disease Progression in Patients with Developmental Dysplasia of the Hip: A Mid-Term Follow-Up Study John C. Clohisy, MD	115
8:15 – 8:20 AM	66	How Does the Achievement of Minimal Clinically Important Difference, Substantial Clinical Benefit, and Patient-Acceptable Symptom State Change Over Time Following Periacetabular Osteotomy? Ernest L. Sink, MD	118
8:20 – 8:25 AM	67	Automated Angular Measurements Extracted from Zero-Echo Time Magnetic Resonance Images Using Deep Learning Image Segmentation and Geometric Modeling Hollis G. Potter, MD	119

Saturday | September 5

8:25 – 8:30 AM	68	A Navigated Surgical System for Periacetabular Osteotomy Incorporating Automated Planning, Contact Stress Optimization, and Real-Time Neurovascular Safety Guidance Kevin L. Garvin, MD	120
8:30 – 8:35 AM	69	Use of Patient Reported Outcomes and Performance Based Outcomes in Hip Arthroplasty - Are There Different Recovery Trajectories between Hip Resurfacing and Total Hip Arthroplasty? George Grammatopoulos, MD	121
8:35 – 8:45 AM		DISCUSSION	
8:45 – 9:25 AM		Session XII: Basic Science <i>Moderators: Steven M. Kurtz, PhD and William M. Mihalko, MD, PhD</i>	Page #
8:45 – 8:50 AM	70	Pathophysiological Mechanisms and a Putative Treatment for Early-stage Osteonecrosis in a Novel Murine Model of Continuous Corticosteroid Exposure Stuart B. Goodman, MD, PhD	122
8:50 – 8:55 AM	71	A Novel Intrapelvic THA Technique Accurately Positions Components and Maintains Tissue Tension Timothy M. Wright, PhD	123
8:55 – 9:00 AM	72	A Comprehensive Preclinical Assessment of Gentamicin Eluting UHMWPE as an Alternative to PMMA in Two Stage Exchange Arthroplasty Orhun K. Muratoglu, PhD	124
9:00 – 9:05 AM	73	Cadaveric Feasibility of a Sensorized Smart Trial Femoral Head for Objective Instability Assessment During THA Trialing Ryan M. Nunley, MD	125
9:05 – 9:10 AM	74	The Corrosion and Cytocompatibility Impact of Electrocautery Damage on Orthopedic Alloys Jeremy L. Gilbert, PhD	126
9:10 – 9:15 AM	75	Impact of Immediate-Use Steam Sterilization on Surgical Site Infection in Orthopedic Surgery: A Large Retrospective Cohort Study Jose A. Rodriguez, MD	127
9:15 – 9:25 AM		DISCUSSION	
9:25 – 10:00 AM		Session XIII: Patient Optimization <i>Moderators: P. Maxwell Courtney, MD and Emil H. Schemitsch, MD</i>	Page #
9:25 – 9:30 AM	76	Development of a Clinical Calculator to Achieve Same-Calendar-Day Discharge After Elective Total Hip Arthroplasty Alejandro Gonzalez Della Valle, MD	130

Saturday | September 5

9:30 – 9:35 AM	77	Impact of GLP-1 Agonists and Social Determinants of Health on Outcomes Following Total Hip Arthroplasty Charles L. Nelson, MD	131
9:35 – 9:40 AM	78	New Member Presentation: Cannabis Users Have a Threefold Higher Narcotic Use After Total Hip Arthroplasty with Little Effect on Anesthesia Requirement Jason M. Jennings, MD	132
9:40 – 9:45 AM	79	The Impact of Transportation Insecurity on Postoperative Healthcare Utilization and Complications Following Total Joint Arthroplasty David C. Markel, MD	133
9:45 – 9:50 AM	80	Artificial Intelligence-Enabled Outreach for Hip Arthroplasty: A Primary Feasibility Study of Patient-Reported Outcomes Completion, Medication Refill Performance, and Workflow-Based Cost Thresholds Ronald E. Delanois, MD	134
9:50 – 10:00 AM		DISCUSSION	
10:00 – 10:45 AM		Session XIV: Complications <i>Moderators: Charles L. Nelson, MD and Thomas P. Sculco, MD</i>	Page #
10:00 – 10:05 AM	81	The PEPPER Trial: Implications of Adverse VTE Prophylaxis Events on Patient Reported Outcomes Vincent D. Pellegrini, Jr., MD	136
10:05 – 10:10 AM	82	Are Implant Outcomes Compromised in Solid Organ Transplant Recipients Undergoing Total Joint Arthroplasty? Emil H. Schemitsch, MD	137
10:10 – 10:15 AM	83	Impact of Door Openings and Surgical Duration on the Risk of Surgical Site Infection in Total Hip Arthroplasty Henrik Malchau, MD, PhD	138
10:15 – 10:20 AM	84	Hip PJI Over a Decade: Are Organism Profiles Changing Across the United States and Europe? Ran Schwarzkopf, MD, MSc	139
10:20 – 10:25 AM	85	Total Hip Arthroplasty within Six Months of Hip Arthroscopy Is Associated with Increased Risk of Periprosthetic Joint Infection Jeremy M. Gililland, MD	143
10:25 – 10:30 AM	86	Hip Abduction Bracing Does Not Reduce Instability After Revision Total Hip Arthroplasty James I. Huddleston, III, MD	144

Saturday | September 5

10:30 – 10:35 AM	87	Gluteus Maximus Transfer After THA: A Viable Adjunct for Managing Abductor Insufficiency Rafael J. Sierra, MD	145
10:35 – 10:45 AM		DISCUSSION	
10:45 – 11:30 AM		Session XV: Revision THA II <i>Moderators: Jeremy M. Gililland, MD and Richard W. McCalden, MD</i>	Page #
10:45 – 10:50 AM	88	Highly Cross-Linked Polyethylene Liner and Femoral Head Exchange for Wear and Osteolysis: Excellent Survival at 10 Years Daniel J. Berry, MD	146
10:50 – 10:55 AM	89	New Member Presentation: Are Head and Liner Exchanges Enough to Solve Instability Following Total Hip Arthroplasty? P. Maxwell Courtney, MD	147
10:55 – 11:00 AM	90	Dual Mobility Construct Selection in Revision THA: A long-term Analysis of Dislocation and Survivorship with Modular and Anatomic Dual Mobility Thomas P. Sculco, MD	148
11:00 – 11:05 AM	91	The Impact of Body Mass Index on Re-revision Risk Following Revision Total Hip Arthroplasty for Aseptic Loosening at Long-Term Follow-up Bassam A. Masri, MD	156
11:05 – 11:10 AM	92	New Member Presentation: Shorter Interval Between Aseptic Revision THAs Increases Risk of Subsequent Failure and Infection Nicholas A. Bedard, MD	158
11:10 – 11:15 AM	93	New Member Presentation: Triple-Tapered Stems Demonstrate Promising Outcomes in Selected Revision THA H. John Cooper, MD	159
11:15 – 11:20 AM	94	Why is Acetabular Component Revision Effective During Revision THA for Dislocation? Systematic Facilitation of Greater Effective Head Size Across Bearing Interfaces Mark W. Pagnano, MD	160
11:20 – 11:30 AM		DISCUSSION	
11:30 AM – 12:10 PM		Session XVI: Complex Hip and Health Policy <i>Moderators: David C. Markel, MD and James I. Huddleston, III, MD</i>	Page #

Saturday | September 5

11:30 – 11:35 AM	95	Clinical Outcomes of THA in Legg-Calvé-Perthes Syndrome: Insights from a Matched-Control Cohort Roy I. Davidovitch, MD	161
11:35 – 11:40 AM	96	PROM Capture Rates in a Regional Hospital System: Limited CMS Eligibility, Barriers to Completion, and Associated Reporting Costs Paul J. Duwelius, MD	166
11:40 – 11:45 AM	97	New Member Presentation: Porous Tantalum Cups with Locking Screws for Severe Acetabular Bone Loss in Complex Total Hip Arthroplasty Nathanael D. Heckmann, MD	168
11:45 – 11:50 AM	98	Impact of Liposomal Bupivacaine on Postoperative Opioid Use and Medical Costs in Medicare Fee-for-Service Outpatient Total Hip Arthroplasty William M. Mihalko, MD, PhD	169
11:50 – 11:55 AM	99	Treatment of Vancouver Type B2 Periprosthetic Femoral Fractures: Fixation of Fracture Before vs. After Femoral Component Placement Richard W. McCalden, MD	170
11:55 AM – 12:00 PM	100	Contribution Margin in Revision Hip and Knee Arthroplasty: Single Surgeon Experience in Fiscal Year 2025 Adolph V. Lombardi, Jr., MD	171
12:00 – 12:10 PM		DISCUSSION	
12:10 – 12:15 PM		CLOSING REMARKS	
12:15 – 1:15 PM		LUNCH
